| SUMMARY     | I am a Full-Stack Application Developer passionate about building mobile applications. Skilled in JavaScript, Node.js, and Flutter, I enjoy problem-solving, learning new technologies, and collaborating in teams. Eager to apply my skills and grow as a developer in a dynamic environment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
